## Professional Summary

AI Automation Specialist with hands-on experience designing and implementing workflow automation solutions using n8n, Zapier, and GoHighLevel. Skilled in AI-powered workflows, CRM automation, REST API integrations, webhooks, and business process optimization. Backed by 8 years of professional experience in customer operations and trust & safety, bringing strong analytical thinking, attention to detail, problem-solving, and process improvement. Built and deployed a production-ready automation portfolio showcasing end-to-end business automation projects.

## Core Skills

- Workflow Automation (n8n, Zapier, GoHighLevel)
- AI: OpenAI, Google Gemini, Claude
- REST APIs, Webhooks, JSON, HTTP Requests
- CRM Automation & Lead Management
- Next.js, React, TypeScript, Tailwind CSS
- GitHub, Google Workspace, Microsoft Excel, Slack

## Featured Automation Projects

- **AI Lead Qualification System:** Automatically scores and routes inbound leads using AI and CRM workflows.
- **AI Customer Support Escalation System:** Prioritizes customer requests and escalates urgent issues automatically.
- **AI Email Classifier & Slack Ticket Router:** Classifies incoming emails with AI and routes tickets to the correct team.
- **AI Social Media Content Approval System:** Automates moderation and approval workflows for social content.
- **Bitcoin Price Alert System:** Monitors market prices and sends automated notifications based on thresholds.
- **AI Cinematic Shorts Generator:** Generates AI-assisted short-form video content through automated workflows.

## Professional Experience

### Content Moderator – Genpact (2024–2026)

- Reviewed high volumes of user-generated content while maintaining quality and policy compliance.
- Investigated fraud-related activities and enforced platform standards.
- Applied analytical decision-making in a fast-paced production environment.

### Player Support Agent – Keywords Studios (2018–2023)

- Delivered customer support via email and chat.
- Resolved account, payment, and gameplay issues while maintaining customer satisfaction.
- Handled VIP and high-priority player concerns.

### Content Moderator – Accenture (2016–2018)

- Reviewed user-generated content for policy compliance.
- Ensured accuracy, consistency, and quality across moderation decisions.
